### PLAY THE THIRTY YEARS' WAR 1618-1648 PB&D-001

The Thirty Years' War was a religious war fought primarily in Central Europe between 1618 and 1648. It resulted in the deaths of over 8 million people, including 20% of the German population, making it one of the most destructive conflicts in human history. Initially a war between the Protestant and Catholic states in the Holy Roman Empire, it gradually developed into a general European war involving most of the great powers. The war became less about religion and more of a continuation of the French–Habsburg rivalry for European political pre-eminence and a Habsburg attempt to rebuild the imperial authority in Germany. Our book contain 29 plates of soldiers and building. Below the list of all the additional sheets that you can buy (the building sheets are covered all together in the final chapter)
